## Annual Christmas Party

MERRY CHRISTMAS  
SLCC!

Now is the time for all you old-timers to get out to a meeting so we can get to see you again!!

Cake and Ice Cream will be served if you have been nice all year long - you wash dishes if you have been naughty.... (bring your Playtex gloves, Moran! :)

Looking into Santa's Raffle Bag, I see a lot of PC stuff.... Did he bring the wrong bag?? I guess we'll have to wait and see. You have to be there to win!

Please make note of the fact that the second Monday (the PC/ST SIG) will be TWO weeks from our General Meeting - not one. Join us on December 14<sup>th</sup>!

**We will not be collecting canned food this year.  
Thank you for your participation in the past.**

## GENERAL MEETING

**Tuesday  
December 1<sup>st</sup> 1998  
8:00PM**

**St. Leander School  
Davis Street - San Leandro**

# Minutes & Stuff

The November meeting started off right on time, which is sure getting monotonous. Kind of makes me think that our past President, the never on time, Jim Hood, used that feature to keep us all on our toes. Jim made sure nobody set their watches by his comings and goings and his reasons were legendary. (Bet he is up there or down there, depending on which way he decided to go, laughing at us.)

President Robie Bridges brought enough stuff for the raffle to choke the proverbial horse. (Ralph, his new roommate is sure making him cleanup.) All this fun stuff at the crooked raffle is coming to a close, as Robbie's house must be almost empty. This next meeting may well be the end of the barrel.

Our next meeting will be the usual Holiday Party with all the trimmings and the crooked raffle should have some really good stuff. So get off your duff and join the party. Rumor has it that Robbie may bring Ralph to the party in December, so be sure and not miss this big occasion.

Don Safer made his 64-bit report, which is slowly dwindling away as the Jaguar falls further into the past. The news nowadays seems to be more on the possibility of something happening rather than on actual happenings. Oh well, so it goes, we will just have to find something else for Don to report on in the future.

This month's PC/ST SIG meeting starred Bob Woolley as he put on a first class program on the installation of windows 98 on a PC. Bob covered the subject in great detail showing and explaining the installation procedure and its pitfalls. The installation was done on Bob's 200 Pentium Pro machine and on a hard drive, which had the Fdisk and Formatting already done.

The installation of Windows 98 went flawlessly and was accomplished in about 45

minutes. The installation time varies depending on the system it is going on. A 486-66 takes over 2 hours to install and the new 400/450 machines do it in less than 20 minutes. Bob has promised more of this type of program for future PC-ST SIG meetings.

The big news this month other than the MS/DOJ trial is the acquisition of Netscape by AOL. With AOL's history this will probably mean the end of Netscape. One good thing that might come of this merging is a fresh supply of AOL floppy disks, and only just in time as I used my last freebie disk on last month's minutes.

See you at the party,

**Jim Moran Secretary**
